Purity	98% , 99% and 99.90%
Packing	25 Kg. / 50 Kg. Net PP Bag
Loading in Container	13 Mt. in 20' FCL & 26 Mt. in 40' FCL

Psyllium Husk

Psyllium Husk

Psyllium is a form of fiber made from the husks of the *Plantago ovata* plant's seeds. It sometimes goes by the name ispaghula. It's most commonly known as a laxative. However, research shows that taking psyllium is beneficial to many parts of the human body, including the heart and the pancreas.

Psyllium is a bulk-forming laxative. This means it soaks up water in your gut and makes bowel movements" much easier. It also helps promote regularity without increasing flatulence. It can be used as a one-off to ease constipation, or it can be added to your diet to help promote regularity and overall digestive health.

Psyllium is a prebiotic a substance needed for healthy colonies of probiotics to grow in the gut. A healthy colony of good bacteria in the digestive system is essential for healthy immune function. Your body is better able to fight infection, reduce inflammation, and maintain healthy tissue and cells.

Psyllium Husk Powder :

Psyllium Husk Powder is processed from the Psyllium Husk which is grinded using Pulverize Machine in various particle sizes that is 40 meshes, 60 meshes, 80 meshes, 100 meshes in all grades of purity. Psyllium Husk and its Powder is used as a mild laxative spread . Psyllium Husk Powder has high fiber and recently it has been started getting used in low carbohydrate treatment
